About This Game

Robo Puzzle Smash is an **intensely addictive** competitive puzzle game that will test your wits and skill against your opponent in a high-energy, block bashing brawl with a **twist**! Drop the blocks and rotate your field to match colored blocks together and set up combos. When the moment is right, use a Breaker to smash the blocks to send them to your enemy!

Features

-
- Fast paced, addictive puzzle fighting action
 - Unique rotating playfield gameplay
 - Six characters (and 2 unlockable) each with their own play styles
 - Online play
 - Local tournament mode
 - Killer soundtrack by The Hoshizora Project
 - Award winning; featured at game festivals

If you like Puzzle Fighter, Puyo Puyo, or Dr Mario you'll feel right at home. It's fast, competitive, and designed for tournament play.

Use your rotate buttons to **spin your entire play field**. Use your rotation to execute combos, avoid play field obstacles, and match your colors. It's a head spinning puzzler like nothing you've ever played. Easy to learn but with enough depth to keep you coming back for more!

Watch your 3D Pixel robot beat your opponent to a pulp! When things get heated use your Super Meter to send a rain of fury down upon your foe!

Featuring a colorful cast of characters inspired by giant robot anime. Each character plays with different colors and has a unique play area. Choose your favorite character and go head-to-head in versus mode or play through the single player story mode.

Fill up your opponent's playfield and win! Knock out your opponent and face the next in your quest for the mysterious VoxSpark; sure to grant the wish of any robot who possesses it...

It's a unique puzzler we think you'll love: Robo Puzzle Smash!

robo puzzle smash

Played the early release they had set up Too Many Games a year ago and it is still as good. If you are a fan of any puzzle game try it out especailly capcoms puzzle fighter.. I can puzzle better than you!

Several unique fighters, various maps to play on, local and online multiplayer, what more could you ask of for?! This game is exactly as it sells itself, it's a puzzle fighter with a literal twist!. Ive been waiting for this game for over a year now and its really well made. i love the mechanics of spinning the blocks around. Anyone who loves puzzle games should give this a try.. Disclosure, I did the background lighting, rendering and color. Picked this up on my own since I like competitive puzzle type games.

I really like this. It's a neat take on the puzzle genre that I want to spend more time with and could definitely see as a regular arcade setup or on something like Switch. There's more depth to clearing it over something like Super Puzzle Fighter that takes some time to get good at, but that's what's enjoyable about it. It captures that fighting game feel in that respect.

I look forward to digging more into it with other people, and I hope a player base stays with it.. Excellent arcade puzzling gameplay! Played through the Arcade Mode (aka Story Mode) on Easy quickly, but the higher difficulties really step it up for a tense challenge. Each character has a very different feel, especially in different matchups. The only con is the mechanics of sending stuff to the opponent are not super clear (if you're not familiar with Puzzle Fighter) and there is no manual, but it's not necessary to understand the details to smash some robo puzzles. Excellent graphics, excellent gameplay, buy this and fight me!
